

Guarded Inmate Safety Rules

Presented by:

Laura Garcia
Doug Peterson

Staff Nurse V
Clinical Nurses, Inpatient
Hosp MGU/CDCR

Inmates must always be escorted by Officers.

Guarded Inmate Safety Rules

Standard of Care

1. Staff admission in the MGU must first be cleared by the Senior Deputy Director & CDCR
 - a. No entrance without prior clearance.
2. Steer clear; stay out of the path of an escorted inmate, take another elevator, etc.
3. Standard of Care; always show professionalism, respect, but not familiarity.
 - a. Use formal titles, First names only, no last names (infers personal interest).
4. Routines are established in MGU; specific shower days, ambulation, ADL's, etc.
 - a. Plan your activities around these schedules.
5. Continuity of care; introduce to medical team; stick to diagnosis.
6. Safety First. When in the presence of an inmate always be escorted by officers.
 - a. If the Officer leaves, you leave. Includes when doing bedside care.
 - b. Maintain a safe distance, only as close as necessary to perform your job.

Proximity or Safety Issues

7. Always obey the instructions of the Officers as to proximity or safety issues.
8. Manipulation, never bargain (I will be good if you give me more food, etc.).
 - a. Never argue, engage in casual conversation; do not provide “extra” anything.
9. Inmates must be escorted by Officers at all time.

Dress code, like make-up, should be subtle, natural, and not distracting or extreme.

10. Never accompany an inmate who is not shackled wrist to waist and at the ankles
11. Never to physically intervene with any security issues either directly or indirectly
12. Inmates may refuse treatment but may not ask for treatment not authorized by CDCR nor can they requested to be returned to the prison. CDCR decides where the inmate goes.
13. The MGU has a specific Dress code. No one not in compliance may enter.
14. No more than two staff are allowed in an inmate room at any one time.

15. Do not bring unnecessary objects into the room

- a. The Officer and Staff person(s) entering the room will perform a pre-entry equipment/supply count and note the # on the white board outside the door.
- b. When exiting the room, the Officer and staff person will reconcile the count before leaving the room. Ensure everything that went in the room came out.
- c. Carry nothing in your pockets (except a pen) when entering the patient rooms.

16. Engineers/persons entering the MGU must surrender toolboxes/containers/etc. to the Officers immediately upon admission to the unit for inspection.

- a. Only specific necessary tools can be taken in rooms, not the entire toolbox/etc.

17. Never tell inmate that he/she may be returning after discharge.

18. If you have a security issue or question, direct it to the onsite MGU Sergeant at ext. 8-7166, House Supervisor and Security

19. If you see something, say something.
